

IRENE Mini Symposium

Sex and Gender in Research

Why do sex and gender matter in medical and health research?

This dynamic mini-symposium reveals how they fundamentally shape study inclusion, outcomes, and scientific rigor. Through a compelling **keynote**, two **talks by researchers** leading the way in weaving sex considerations into study designs, and a **moderated panel discussion**, you'll gain practical insights into real-world challenges, proven best practices, and emerging opportunities to integrate sex- and gender-sensitive perspectives - ultimately **advancing health equity and more robust research**.

Schedule

- 10:00 Keynote by Laura Wortmann
- 10:40 Building the Female Immunity Data Value Chain by Tal Pecht
- 11:00 Best Practices: "Sex and Gender in Research" by Lisa Dannenberg
- 11:20 Panel Discussion moderated by David Fußhöller
